### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

The recitations of the specific features of the device for protecting objects placed inside the rear boot of a motor vehicle bearing a foldaway roof in claim 1 including especially the construction of the panel in the low protecting position being used to co-operate with a first sensor so as to authorize the folding of the roof, wherein the co-operation of the panel with the first sensor is such that, when the panel is higher than the low protecting position, the roof cannot be folded, and in that the co-operation of the panel with a second sensor is such that, when the panel is higher than the high protecting position the boot cannot be closed is not taught nor is fairly suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The cited references show several other rear boots similar to that of the current invention.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lori L. Lyjak whose telephone number is 571-272-6658.
